EUREKA!!

THE ONLY CHURN IN THE WORLD that perfectly combines the art with the mechanical process, performing the Churning as fast as the mechanical change; extracting all the butter and leaving the milk as pure as when it was churned. It is made of iron and is so constructed that it can be used for any other process known. IT CHURNS IN 10 MINUTES!
At all seasons of the year.
It works the butter in one-half the time, and better than can be done by hand. It has been tested by the Western New York Farmers' Club, and pronounced the most perfect churn ever invented. Thousands are now in use in New York and New England, and in every instance give the most unequalled satisfaction. Every dairyman who studies economy will only need to try them to be convinced of their extraordinary merits.
There are manufactured at Ashtabula by C. CULLEY. All orders will be filled on reasonable notice. Dishes sent to suit all. A valuable treatise on Butter Churning furnished with every churn.
